

Against Scale and Rust

Money Savings and Benefits for Hospitality Applications

Vulcan eco-friendly water treatment products are the salt-free alternative to traditional water softeners in hospitality applications

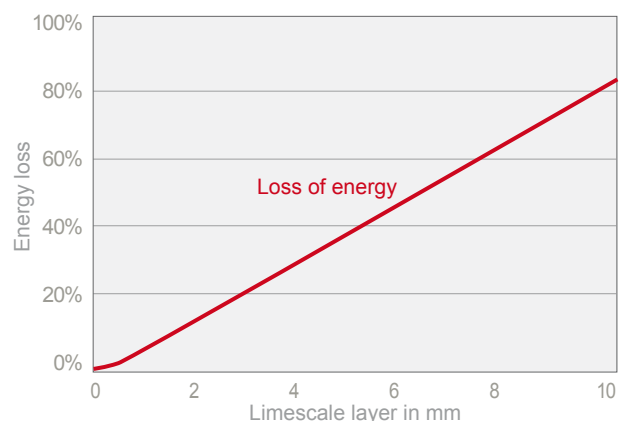

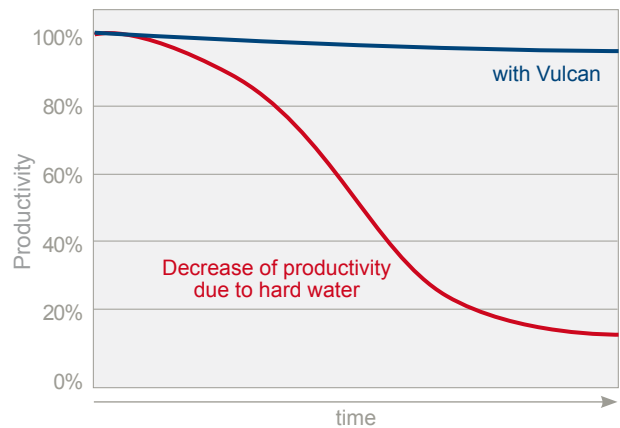

Restaurants, laundry services, swimming pools, wellness centers, heating or cooling tower operations are just a few examples how hotels utilize water.

The use of the eco-friendly Vulcan water treatment saves you time and money from day one of the installation. It is a solid purchase for your operation with a quick return on investment.

Money Savings with Vulcan	
1	Reduction of heating costs (e.g. 1 mm of limescale deposit = 15% more energy consumption)
2	No need of de-scaling of water heater every two years by a specialist
3	Savings of up to 50% on laundry detergent
4	Savings on softeners for your washing machine
5	Minimal use of salt/soap for your dishwasher
6	Savings on aggressive cleaning agents
7	Savings on shampoo, soap or expensive skin care products
8	Reduction in cleaning time and labour costs
9	Longer life span of all appliances and pipes (washing machines, dishwashers, coffee machines, water heaters, etc.)
10	Fewer maintenance visits required on water heaters, washing machines, dishwashers, etc.

Quality - Made in Germany

- ▶ Manufactured by Christiani Wassertechnik GmbH (CWT) Berlin
- ▶ Over 30 years experience in physical water treatment
- ▶ Available in more than 40 countries

Against Scale and Rust

Benefits for your Hospitality Application

Piping System

Vulcan protects the whole piping system and reduces already existing deposits. Scale is now washed away in the water as a fine powder.

Shampoo and Soap

Due to the changed surface structure of the water, shampoo and soap foam more and are more yielding.

Tiles and Fittings

The common water(scale) splashes you can easily remove with a damp cloth or sponge effortless.

Food and Beverages

Keeps their natural taste and important minerals remain in the water.

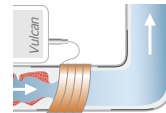

Dishwashers

Use less and eco-friendly washing-up liquid or tabs. Dose the salt according to soft water (least amount).

Skin and Personal Hygiene

Skin and hair (especially allergic people) feels softer. Less expensive care products are needed.

Reduces Bacteria and Biofilm

With the removal of scale biofilm and biofouling will be reduced and therefore also the breeding ground for bacteria.

Washing Machines

You just need washing-up liquid or washing powder according to soft water (least amount). No need of fabric softener or decalcifier.

Nozzles and Shower Heads

Are easy to clean without need of aggressive and expensive cleaning agents. They last longer.

Cooling Towers

Less cleaning intervals and no need to apply acids. Reduced water consumption and maximized tower cycles.

Vulcan - Against Scale and Rust

Vulcan is the eco-friendly water treatment system which protects your pipes and equipment against scale and rust.

- ▶ Eco-friendly solution without chemicals or salt
- ▶ Easy installation without cutting the pipe
- ▶ Long life – fully cast in acrylic
- ▶ Maintenance-free
- ▶ 10 year international warranty

- ▶ From 1/2" up to 20" pipe diameter
